Prices allowed in FY-2020 are the same as FY-2019.

The maximum allowance for machinery or equipment is \$240,000.00 (Two hundred forty thousand dollars). This amount represents the cap.

If the listed price is less than \$240,000.00 then that is the maximum amount allowed for that type of machinery or equipment.

If the listed price is more than \$240,000.00 then \$240,000.00 is the maximum amount allowed for that type of machinery or equipment.

(Notations of horsepower (hp), pounds (lb), cubic yards (cy), etc., are not intended to be exact and/or limited but are representative of a possible range.)
